110-140 lb (50-64kg)	3 - 4 cups (465-620 g)	3 3/4 - 4 1/2 cups (581-698 g)	4 1/4 - 5 cups (659-775 g)

Pregnant females increase feed intake beginning week 7 of gestation up to 25%. Lactating females increase feeding up to 50%, feeding a minimum of 3 times daily. Feeding requirements vary depending on breed and litter size. Monitor body condition of pregnant and lactating females and adjust feed accordingly.

KASIKS products are a complete and nutritionally balanced food for dogs at all life stages. Serve dry or slightly moistened in a clean bowl. Use this chart as an initial guide and adjust accordingly. Feed amount over two meals a day. Always provide fresh clean water.

## Fraser Valley Grub Formula

KASIKS Fraser Valley Grub formula proudly uses a combination of Fraser Valley Grubs which are Eco-Friendly, Clean, Novel and a Healthy source of protein in addition to sustainable, Wild Caught Coho Salmon from the West Coast of North America. This diet can be fed alongside one of our dry options or on its own as a complete and balanced diet.

- 🐾 NOVEL, ECO-FRIENDLY, CLEAN & HEALTHY INSECT PROTEIN
- 🐾 WILD CAUGHT BONELESS, SKINLESS COHO SALMON
- 🐾 GRAIN, GLUTEN & POTATO FREE
- 🐾 ANTIOXIDANTS FROM COCONUT, KALE & BERRIES!
- 🐾 ALL LIFE STAGES

### INGREDIENTS:

FirstMate | Kasiks Pet Foods

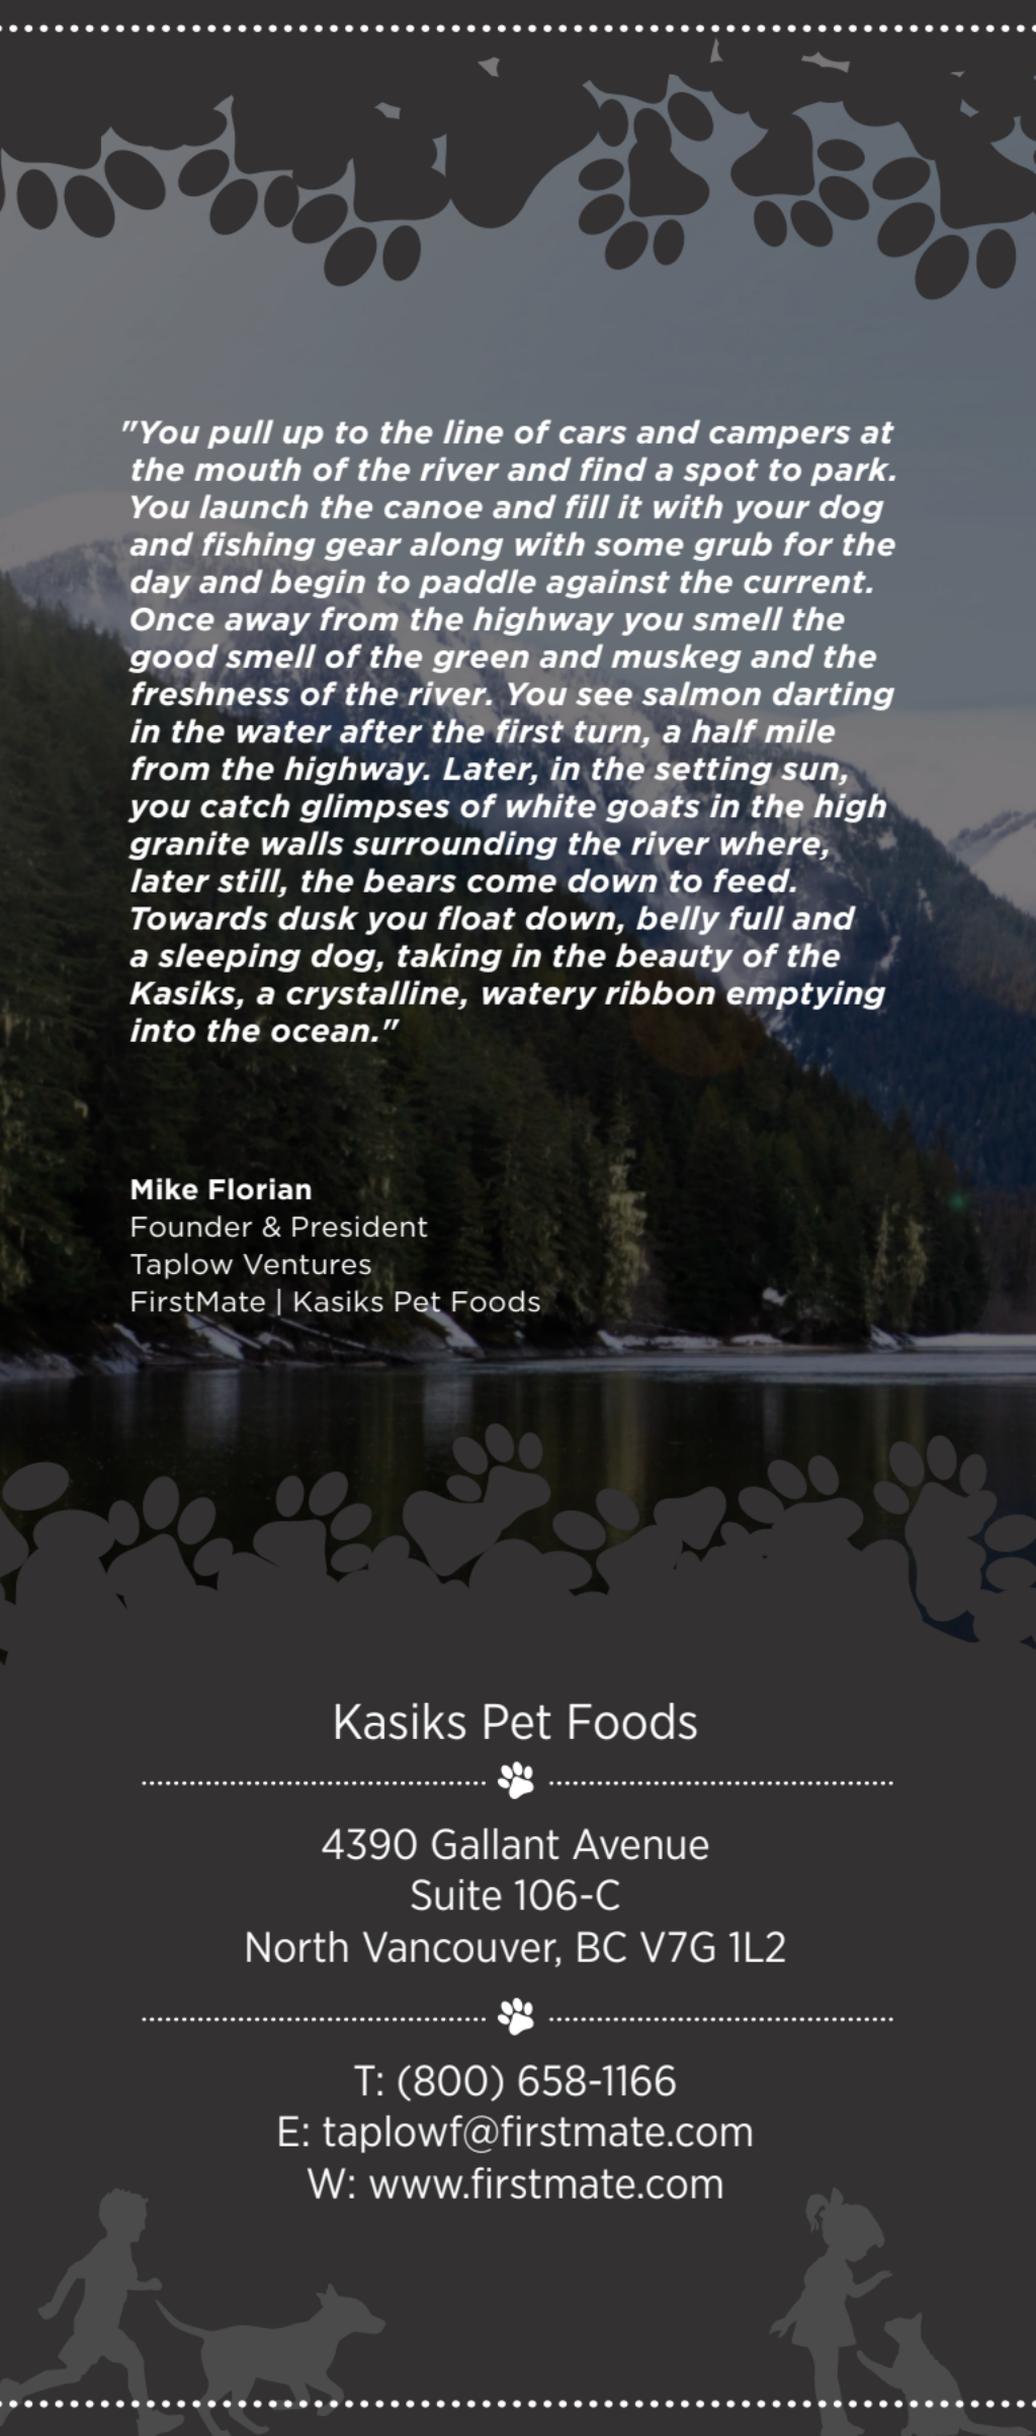

Simply Inspired By Nature™

*“When we first started our company in 1989, it was always the goal to make our own products. By initially investing in a manufacturing plant instead of only concentrating on marketing our pet food, we ensured quality control and product integrity. That philosophy and mission continues. It allows us to sleep better at night knowing our pets will be nutritionally cared for so we can enjoy a life long companionship with them.”*

### **Mike Florian**

Founder & President  
Taplow Ventures  
FirstMate | Kasiks Pet Foods

*"You pull up to the line of cars and campers at the mouth of the river and find a spot to park. You launch the canoe and fill it with your dog and fishing gear along with some grub for the day and begin to paddle against the current. Once away from the highway you smell the good smell of the green and muskeg and the freshness of the river. You see salmon darting in the water after the first turn, a half mile from the highway. Later, in the setting sun, you catch glimpses of white goats in the high granite walls surrounding the river where, later still, the bears come down to feed. Towards dusk you float down, belly full and a sleeping dog, taking in the beauty of the Kasiks, a crystalline, watery ribbon emptying into the ocean."*
